How to Prepare for the Masterclass

Hey there,

Congrats on taking the time to download this **Masterclass Action Guide** - you're already one step ahead of most course creators!

Before our masterclass begins, I want to talk to you about something important.

When I talk to most course creators about scaling their business to 6 or even 7 figures without launching, one of the underlying themes seems to be their fear of "not being enough".

"What if I don't really have what it takes to enroll hundreds or even thousands of new students into my online course month after month?"

"What if people don't like my course?"

"What if people don't like me?"

These are all very real fears and I've even experienced them myself from time to time.

But for now, let's put those fears aside.

They may pop up next month and that's ok, but for **now** I want you to focus on learning the method that has helped me and hundreds of others scale our business with success.

My promise to you is this:

- I will deliver as much value as humanly possible in this **free** 60 minute masterclass.
- Everything you'll learn has already been tested and proven to work by me and hundreds of my students.

If you feel like you need more help and guidance I will give you the opportunity to learn more about my premium program - I even have an **extra** juicy bonus for those who enroll during the masterclass.

But, even if you don't enroll you will still walk away with some valuable information you can use in your own business to generate consistent revenue on autopilot.

If that sounds good to you, then I'll see you soon at **How to Generate Launch-Sized Revenue Without Launching**.

To your success,
